

Jasmine Pfingsten

Web Developer

Film professional turned web developer. Experienced working with teams and iterating through designs to deliver intelligent, elegant solutions. Clear and effective communicator who tackles challenges with enthusiasm, empathy, and precision. Seeking work that offers mentorship and takes advantage of my front-end skillset while providing opportunities to learn new languages and technologies, especially in back-end or design.

- React.js & JSX
- Git & GitHub,
TFS / Azure DevOps
- C#, SQL
- Visual Studio, Atom
- Photoshop, Figma, Balsamiq

Experience

April 2022 - current

Regimen Technologies | Richmond, VA

Web Developer

Assisted in development of quoting and estimation software for an enterprise client and transitioning it to SaaS offering "TOPQuote." Delivered on UI change requests, tackled support requests and bugs using Azure DevOps, and expanded my knowledge of back-end languages and technologies (C#, SQL, .NET, MVC web app model, et al). Also created and updated product website for TOPQuote utilizing HTML/CSS, Bootstrap, jQuery, and Azure DevOps for deployment.

2015 - 2021

Arvold Casting & Freelance | Richmond, VA

Casting Associate / Cast Member

Worked in the local film industry as a crew-side casting associate and in front of the camera as a professional performer. As casting, managed the in-person and virtual audition process for numerous commercials, films, and television shows. Worked remotely or on-site as project required. Managed relationships between executive producers and casting team. As a cast member, worked creatively with producers and directors on prestigious projects that eventually aired on Hulu, Showtime, PBS, and more.

2013-2015

Koch Companies Services | Wichita, KS

Paralegal / Transactions Specialist

Worked with a team of paralegals and lawyers to execute business-critical legal transactions within a high-volume tax law department. Worked with legal offices worldwide and became familiar with the legal requirements of multiple international jurisdictions. Helped complete the acquisition of Molex, a major M&A transaction covered extensively in business news in 2014-2015.
